## FOR IMMEDIATE RELEASE

### **Westbound Interstate 80 Ramp Meter Project-Vacaville Watch For Work at Merchant Street-On-Ramp**

**SOLANO COUNTY** – The California Department of Transportation (Caltrans), the Solano Transportation Authority (STA), and the Metropolitan Transportation Commission (MTC) are continuing work on the next phase of ramp meter activation in Solano County on westbound Interstate-80 in Vacaville.

As part of the work, Caltrans is working closely with its project partners and PG&E to relocate a natural gas pipeline at the Merchant Street on-ramp onto westbound I-80. Caltrans does not anticipate any ramp closures the week of April 17th. However, the on-ramp may be closed during some overnights in the month of May.

Caltrans will contact the public once additional details are available regarding overnight ramp closures and project completion dates. Crews anticipate completing the work at the Merchant Street on-ramp no later than mid-June.

In addition to relocating the gas line, the work involves adding traffic metering lights, and repaving the roadway.

Motorists should expect delays and plan for extra travel time. All work is weather permitting.

#### **Additional Details**

For more information on the project, including maps and pictures go to our Caltrans I-80 Solano Ramp Metering webpage at:
